

Today was eventful (it wasn't). You have absolutely no idea how your text flipped my entire day. I had a terrible morning with being rained on whilst having my laptop in my very absorbent backpack and arrived at class far too early just for the lecturer to say it's conducted online. Having my sleep disturbed for a class nobody likes is one thing, having it disturbed for a class nobody likes + the lecturer cancelling physical classes to online classes right before the class is another.

Anyway, this should be a good time for me to talk about the website. Minta maaf do fatimah. Kalau you rasa benda ni cringe, bagitau I tau. Minta maaf do beria coding banyak2 pastu setiap hari asyik ada update. Kalau you tak suka, bagitau iiii. I okay je sumpah. Cakap je part mana you tak suka. Nanti I try ubah. Kalau you tak suka the whole thing, I ubah the whole thing. Kalau you nak website yang lebih professional, sabar jap. Bagi I ikut course coding yang betul2.

I cerita psl you kat roommate i HAHAHA. I cerita gak ah you chat pastu hantar gambar. I punya excited untuk describe betapa lawanya you tu mmg gila gak ah. Ni mmg dah betul2 mesmerised by you every single day dah sayang. Tp I cerita kat dia yg you ni laki ah so I asyik ckp you handsome. Mmg you suka en I ckp you handsome. Tp mmg betul pun. You ni semua benda pun boleh. Pro ah.

I rindu you do fatimah. You hantar gambar je pun tp effect dia sumpah besar. I happy gila do dpt tgk you. Walaupun you ckp "nah" je tp tu pun I boleh terfikir sepanjang hari. Sambil kelas pun I tgk balik gambar you. Kalau tak pakai mask mmg nampak cam org gila ah senyum sorang2. Sayang you do fatimah. Oh last last, I guna gambar you jadi bookmark iii. I punya semangat untuk baca buku i tu mmg meningkat ah. Setiap saat asyik nak bukak buku je demi tgk muka you.
